WORK EXPERIENCE

- JUNE 2017 | iOS Developer at Uriji Jami Ltd, *Caracas*.
I was a developer and maintained an iOS application using an MVVM architecture for 2 months. In conjunction with a development team using the methodology *SCRUM* and *git* as the version control system. The main objective of the application is to monetize experiences and promote dreams, creating a social network.
- JANUARY 2017 | Teacher's Assistant at the Simón Bolívar University, *Sartenejas*.
I took the initiative to get involved in teaching because it's an activity that i would like to play in the future. In the majority of cases, i supported in courses of languages and compilers. Given the current crisis that the universities suffers in my country, in which they're losing teaching staff, and be graduated from USB, i felt the need to collaborate with the institution that formed me. Unfortunately I worked for 9 months, because the opportunity to enroll in a master's program at the UPM in Spain was presented to me.
- SEPTEMBER 2016 | iOS Developer at PICTURE, *Caracas*.
I was iOS developer for 9 months in a company whose main product was an application that composes music based on image processing. I learned and worked with the programming languages *Swift 2*, *Swift 3* and its migration. I also worked maintaining the services of a server in *AWS* and configuring *NGINX* to balance loads.
